Description :

PDF-abab2 | Headshots—images that include the subject’s head and shoulders—are big business for photographers. These types of images are needed by individuals from all walks of life—from business tycoons to actors and models. While most clients who book portrait sessions want images that document a moment in time, special event, or aspect of their personality (and file them away or share them with family... *Photographing Headshots: Techniques for Lighting and Posing the Close-Up*
